Subject: NEWS MEDIA - PUBLIC UNION \$84,000.00+ CORRUPTION PAYOFF

Jeff Light, Editor

Mr. Light, below is a link to the first article in a series, on the involvement of the news media in covering police, fire, and DA public union evidence tampering, election fraud, conspiracy, and obstruction of justice. I would like interviews with you and several of your reporters regarding the Union Tribunes avoidance of stories on public union criminal corruption. All of the information, documentation, and location of evidence on the posted articles at www.gtnewsphoto.com was given to your reporters, and I never saw any evidence of follow up, investigation, or reporting.

Woodrow (Woody) Higdon
Editor - Journalist

BREAKING NEWS – PART I

The San Diego North County Times advertising department took in more than \$84,000 for publishing and delivering fraudulent election campaign literature, that they knew was fraudulent. The money was paid by the Oceanside Police and Fire Unions who were conspiring to Tamper With An Election, to increase their pay and benefits. The election fraud was a success, partly because the News Media avoided investigating and publishing on the public unions.
