I want to state for the record that I am about as anti union as anyone can find so you can be assured that if there is any possibilities of anyone at the UT guilty of your allegations they would be removed.

I am asking our team to respond

Union Tribune reporters, including your editors Jeff Light and Ricky Young were given all of the hard public record evidence for more than two years. The hot links from the primary articles will lead you to the follow up articles. I will happily sit down in front of you, and walk you through the entire process, with the public record documents. The UT showed a clear political bias in what parts they published and did not publish.

Campaign finance records and copies of the falsified literature are attached to the articles with a history of notification to the NCT, and other news groups.

The driving force was to protect the DA's office and Dumanis from a \$20 million dollar law suit in the Sommer Murder Prosecution, and potential criminal charges in the middle of her run for Mayor. The article with public record docs attached are here. Written docs from inside the DA's office confirm a criminal conspiracy to obstruct justice by manipulating criminal and civil court systems. In the past 12 years of evidence tampering 6 innocent people that I know of were prosecuted and jailed for crimes they did not commit.

Even the Associated Press avoided investigating and publishing on the NCT payoffs, and the same union campaign finance money flow to the networks, to protect the ongoing sales of AP news stories to all of those same news groups.

I have been threatened by Cops, DA's, elected officials, and even an attorney general, to keep my mouth shut and stop publishing, or else. Two DDA's and one Senior Asst. Atty. General involved in the corruption and cover up, have been quietly terminated, as a direct result of my investigations, and publications, while all of the County news media looked the other way because everyone was wearing badges.
