Subject: Public Corruption Investigation

Mr. Light and Mr. Burgin,

I am following up to see where you are in the public corruption investigations we discussed in our meeting. I have seen the article on Dumanis regarding the Sommer case evidence tampering. I have not seen anything on the Oceanside Police and Fire departments election fraud, or the extensive evidence 8 years of evidence tampering involving the DA's office, the Oceanside Police Department, and the County Sheriffs. Have I missed anything, or has there been no publication.

Subject: Public Corruption Publication Follow Up

Rick,
As per our last conversation, I have been monitoring Union Tribune publications. However, I have not seen any publication since the very abbreviated story on just DA Dumanis's evidence tampering, which did not mention any of the other evidence tampering by DA's and local police, or it's direct connections to the police and firefighter election fraud. Have I missed something, or is that all there is.

My agreement with the UT was I would not start publishing on the Union Tribune's involvement in avoiding investigations and publication on the public corruption, until you had a new opportunity to review documentation and publish accordingly. I have kept my word. I have completed interview contacts with the six local television networks, and their news directors.

Is the Union Tribune going to protect the citizens, and go after this extensive union and first responder corruption, or not?
