Woody,

Thanks for your feedback. We did explore the angle of a ban on prosecution of the insurance companies, but Greg found a handful of cases in which the companies *were* prosecuted. So the idea of a blanket ban on that didn't seem to hold up.

We don't intend this story as the last word on the subject, by any means, so please keep us posted.

Greg, Jeff, Rick,

Your article on the "Special Funding Grants" is a good article, however, it is about four years late, and more than a few dollars short. I first started given this info. with documentation to Union Trib reporters, including Aaron Burgin, more than four years ago. This same info I gave Jeff Light and Ricky Young in our meeting almost a year ago. You picked up on a number of the issues, but you miss the biggest ones. The prosecution unit actively goes after individuals or business on criminal fraud, but they actively protect the insurance companies from all criminal complaints and prosecutions for the same crimes. You should read penal code section 520. This protection, the DA's office has agreed to in advance, to get the money, and there are restrictions in those agreements to protect insurance companies and their employees from investigation and prosecution. Jeff, I showed you a copy of that DA letter in our meeting. You will find this documentation posted with my articles at:

The money does support personnel, printers, investigators, prosecutors, etc., however, once again you avoided the money support connections to the DA public unions. That five million dollars a year to the county treasury is more money for the unions to negotiate over, just like in Oceanside. The same way your reporters avoided reporting on the Oceanside Police and Firefighters unions criminally tampering with an election to expand union money, and the same way your reporters avoided reporting on those same unions, financing the campaigns of the attorney general Kamala

Harris, and AG Brown's run for Governor, while they protect the election fraud from investigation. The same union money paying 100k to the North County Times for delivering falsified campaign literature while the NCT, and the Union Tribune avoiding reporting on the election fraud. The list goes on.

Those funding grants are connected to the McAnally civil litigation, and the conspiracy to obstruct the Marugg investigation. The e-mail I obtained from his attorney to the DA's office lays out the criminal conspiracy in writing, and is matched identically, the terminations of DDA Gunn and DDA Rodriguez. Both quietly terminated (resigned) to protect the massive evidence tampering cover up.

I admit the DA is a major crook, however, of all of the documentation I have provide to your reporters over the years on corrupt elected officials, and corrupt unions, the only part your reporters have shown interest in is the corruption of republican Dumanis. That gives me a lot of concern.

You should also take a look at the latest documentation in the DA's conspiracy to obstruct the dismissal of the Cynthia Sommer case. They knew in April 2008 that the arsenic evidence used to convict Sommer was false, and never existed. The DA's office then manipulated the criminal justice courts to protect DA records and DDA Gunn from subpoenas in the Sommer litigation. This was done at the same time they suppressed all criminal investigations of DA and Police evidence tampering to keep that smoking gun evidence out of the hands of Sommer's attorneys.
