Jeff, please respond as I need clarification as to these serious allegations and really do not need to hear from this person again as I find nothing credible

They obviously found my documentation credible, as they published, selectively, on Republican DA Dumanis corruption, and eventually the insurance fraud scheme operating out of DA Dumanis's insurance fraud division. They also carefully avoided connecting any of the Dumanis evidence tampering to other DDA's, and the Oceanside Police and Fire Dept. evidence tampering and elections fraud, even though internal DA documents proved a DA conspiracy to obstruct justice, and a pattern of past cover up. Those documents even proved an internal DA conspiracy to manipulate criminal and civil court systems to avoid DA civil and criminal liability.

I personally gave more than two dozen public presentations in those meetings, laying out the corruption and where to find the public record evidence in front of those reporters, including Michael Burge, and Aaron Burgin. They made it clear, they did not want to hear about first responder union corruption, even with public record evidence. I made regular phone and e-mail contacts with more than a dozen UT reporters over a three year period, and hundreds of e-mails to every reporter listed on your web site. Some of your reporters were even calling me, looking

for public corruption info on other cities, and other elected officials, but there was no coverage on the unions election fraud and evidence tampering, or the direct criminal involvement of the NCT.

Once the news groups realized they were part of the investigation, and I was asking for interviews on why they cover up the corruption, mass amnesia and denial set in, and union money and access to news sources were always present in one way or another.
