Agent Aguirre,

The FBI should read this article about the Shields Evidence Tampering and Obstruction of Justice. I have provided the FBI hard evidence of obstruction of justice, evidence tampering, falsification of police and public records, election fraud, etc. involving somewhere between 20 and 40 police officers, district attorneys, city council members and their financial and political supporters.

District attorneys involved in the criminal conduct are being quietly discharged, and the criminal complaints with documentation are buried with no follow up to avoid investigations and prosecutions. Outright criminal conduct by multiple Oceanside Police officers & DA's is placed into the "employee personnel category" to block all investigations and the release of any information.

I have avoided publishing on these issues to give the FBI a clear track for its investigations. I expect the FBI to do its job, even though most of these criminals are wearing badges. Read the article. An innocent man could have died because of all of this cover up and obstruction of justice by dirty cop and dirty DA's on just one of these audio tapes. Officer Smith had 37 tapes that we know of and ADA Laura Gunn and the DA's office covered up evidence and a witness to the involvement of other Oceanside Police Officers. How many innocent people have these people put in prison to protect their reputation and their pensions.

I expect the FBI to do its job, and soon.

Read the article. This could be your son, or nephew, or your neighbor. I will not let this go, and walk away quietly.
